

## THE ENERGY SURVEY IS COMING YOUR WAY.....

Energy Survey forms will be distributed towards the end of this month by members of **Barningham Net Zero Community Interest Company**. This invitation is being made to all households in the Barningham area to complete a survey of energy use. It is a major milestone on the road to exploring the possibilities of generating our own electricity locally from renewable resources.

Residents who complete the survey will make a vital contribution to the essential step of determining Barningham's total electricity generation requirements. Additionally, completion of the survey can lead us all towards accessing the best practice in home insulation, heating and cooking fuel and aid towards the goal of reducing pollution.

The survey can be completed as a hard copy or in electronic format (on request by email to **info@barninghamnetzero.com**). Completed forms should be returned to Teesdale Environmental Consulting in a pre-paid envelope provided or by email. In either case no confidential information will be divulged to the Barningham Net Zero Team.

Please help the team who are working hard with this exciting project to get a better deal for us all and the environment.

With sincere thanks in advance for your co-operation.....

### **The Barningham Net Zero Community Interest Company team**

- *George-Ann Brooks, 621203*
- *Judith Lewis, 07791 951 436*
- *Jane Longfield, Bramble House, longfieldjane@gmail.com*
